Devisha Agrawal

Chennai, Tamil Nadu | devishaagrawal4@gmail.com | 7870557830 | linkedin | Github

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience developing full-stack and backend applications, RESTful APIs, database-driven systems, and interactive data dashboards. Skilled in Python, Java, JavaScript, SQL, FastAPI, React, Next.js, and PostgreSQL, with additional experience in data analysis, AI-powered application workflows, responsive web development, and UI/UX design. Experienced in building automation workflows, designing user-centered interfaces, and leading creative initiatives through college organizations. Strong foundation in software engineering, database management, problem-solving, and cross-functional collaboration.

TECHNICAL SKILLS

Programming: Python, Java, C/C++, JavaScript, TypeScript, SQL
Full-Stack Development & Databases: React.js, Next.js, HTML/CSS, Bootstrap, FastAPI, Node.js, REST APIs, PostgreSQL, MySQL, MongoDB, SQLite
ML & AI: Machine Learning Fundamentals, LLMs, Prompt Engineering, Tokenization, Retrieval-Augmented Generation (RAG), AI Application Development, AI API Integration
Data Analytics: Pandas, NumPy, Excel, Tableau, Matplotlib, Data Cleaning, Data Visualization
Tools & Design: Git, GitHub, Docker, AWS, Jupyter Notebook, Figma, Canva

EXPERIENCE

SIMS Internship | August 2026

- Develop a training management and reminder system using FastAPI, React, and PostgreSQL to streamline training scheduling, attendance tracking, reminders, and reporting.
- Design RESTful APIs for training creation, updates, rescheduling, status management, attendance tracking, and calendar-based operations.
- Implement asynchronous and recurring background tasks using Celery and Redis to automate scheduled reminder workflows.
- Containerize the application using Docker and integrate SMTP-based email notifications for automated reminder delivery.
- Validate system records against Excel reports to improve data accuracy and support reliable reporting.

PROJECTS

Portfolio

- Developed a fully responsive portfolio website utilizing HTML, CSS, JavaScript, and Bootstrap, effectively showcasing a diverse range of skills and projects.
- Engineered a clean, intuitive, and user-focused interface with cross-device compatibility, ensuring an optimal user experience across various platforms and screen sizes.

Stock Price Prediction Website

- Developed a stock market analytics platform to monitor and analyze more than 20 stock tickers.
- Built interactive dashboards displaying stock trends, moving averages, P/E ratios, EPS, trading volume, and market capitalization.
- Integrated financial data through the Yahoo Finance API to support market monitoring and comparative analysis.

AI Blogging Platform

- Developed a full-stack blogging platform featuring user authentication, content management, and database-backed content persistence.
- Designed backend API workflows for user management, blog creation, content retrieval, moderation, and administrative operations.
- Integrated AI-powered content moderation, image classification, and automated content-related features..

AI Payouts System

- Engineered an automated payout management application using Next.js, FastAPI, and PostgreSQL with real-time event processing.
- Built APIs and decision workflows to detect late deliveries, evaluate insurance eligibility, and automate compensation while ensuring efficient data processing.

EDUCATION

B.Tech – Computer Science and Engineering [SRM Institute of Science and Technology • Chennai, Tamil Nadu] 2023-2027
CGPA: 9.07
Class XII in PCMB [St. Karen's Secondary School • Patna, Bihar] 2022-2023
Class X [St. Karen's Secondary School • Patna, Bihar] 2021-2022

POSITION OF RESPONSIBILITY

Head of Content & Visual Media (SRM Institute of Science and Technology, Chennai, Tamil Nadu • ACE) June 2026 - Present

- Lead the Content and Visual Media team, overseeing creative campaigns and promotional content.
- Create and manage videos, social media posts, event branding, and marketing materials..

Graphic Designer July 2024 – May 2025

- Created event posters, digital assets, and promotional content using design tools.
- Worked closely with event coordinators to deliver creative and brand-consistent visuals.
- Improved event outreach through attractive and engaging marketing designs.

Tech Assistant and Event Coordinator (SRM Institute of Science and Technology, Chennai, Tamil Nadu • DI Club) February 2025

- Assisted in organizing and executing technical events during the annual symposium.
- Designed technical quiz questions on programming, computer science, and emerging technologies.
- Managed event operations, participant coordination, scoring, and query resolution to ensure smooth execution.

Public Relation Team (SRM Institute of Science and Technology, Chennai, Tamil Nadu • DI Club) March 2025

- Managed external communications and promoted club events through social media and email campaigns.
- Coordinated with speakers and participants to ensure seamless event execution.
